**PROFESSIONAL**

**THE ULTIMATE CLEAN**

**QUICK START GUIDE**

*Hoover® REACT™ machines combine FloorSense™ Technology and WindTunnel Surge™ to optimize performance of the machine automatically.*

*Tools and accessories vary by model*
Featuring micro-sensors that detect the type of floor you’re vacuuming, Hoover® REACT™ knows when and how to adjust brush roll speed for the best results on any floor type.

When cleaning carpet, FloorSense™ automatically increases brush roll speed to lift deep-down embedded dirt.

On hard floors, FloorSense™ automatically slows the brush roll to prevent scattering of debris across the floor.

When FloorSense™ is active, lights on the dashboard will pulse and select the optimal setting for your floor type.

The tools you need for a whole home clean

Professional power with a high-capacity dirt cup for a deep clean

Maneuver around with ease

Perfect for pet owners
A New Generation of Clean
Building on our heritage, we’ve modernized cleaning for today’s active families. Hoover® REACT™ combines the power and suction you trust with intelligent cleaning technologies to deliver The Ultimate Clean.*

FLOWSENSE™ TECHNOLOGY
Micro-sensors detect floor type to optimize cleaning performance automatically.

WINDTUNNEL SURGE™ SUCTION
Captures and contains dirt, dust and pet hair.

CONNECTIVITY
Compatible with the Hoover App so you can customize your cleaning experience and maintain your vacuum for optimal performance.

*Hoover® REACT™ machines combine FloorSense™ Technology and WindTunnel Surge™ to optimize performance of the machine automatically.

Compatible with the Hoover App
Download the Hoover App to:
1. Register your new vacuum
2. Customize FloorSense™ settings
3. Receive system maintenance reminders
4. Access tips and tricks
